

Twelvemonth

MIDDLE SCHOOL · GRADES 6–8

ONE THING WORTH FIXING

- 🚜 Local food — why does it matter where food comes from?
- 🗑️ Food waste — what happens to uneaten food?
- 🏫 School food — what would a sustainable school lunch look like?
- 🌿 Plant-based food — what does it take to make vegetables the star of the plate?
- 💧 Local ecology — how does farming affect the land and water near us?

YOUR JOB

1. Research it (2–3 sources)
2. Find a local angle if you can (San Mateo County, the Peninsula, your school)
3. Take a position — don't just report facts. What do **YOU** think?

THEN MAKE ONE OF THESE

- ✍️ Essay (300–500 words) 📄 Research poster (hand-drawn or digital) 🎥 Short video (under 2 minutes)

Your work may be displayed at Twelvemonth restaurant in Burlingame and featured on their website.

Go deep. 🧐
